

Section 5: Mitigation Implementing Actions

The **implementing actions** are activities that the county agencies and citizens have proposed and agreed upon as those that if implemented will reduce the risk in the wildland/urban interface.

Existing actions - are activities that are currently in progress.

Short-term actions - are activities that county agencies may implement with existing resources and authorities within one to two years.

Long-term actions - may require new or additional resources or authorities, and may take between one and five years to implement.
